

Meeting Agenda 2

Location: slack

Information Updates/Reminders

- This following week, we are going to work on a used case diagram, use case details, and UI draft.

Decisions Needed

- Python Programming Language is selected for our online courier service management project.
- Django is selected as a FrameWork.

General Items

- For this project allocate two members to create a Use case diagram.
- Two or three members to complete the use case details.
- Member should come up with their UI (User Interface) as draft.
- Allocate one/two members to design homepage UI (User Interface) draft.
